## HOLLIS AND BROOKLINE TOWN LINE

On account of abatement of taxes being asked for on property that laid in both towns, survey was made so that we could see whether property, or how much of same was in Brookline. Survey was made on only two pieces of land in question and found Brookline was overtaxing same as part was found to be in Hollis.

## TOWN LINE BETWEEN BROOKLINE AND MILFORD

In taking a new valuation the past year we were in a quandary where the line between Milford and Brookline was. Meeting the Board of Selectmen of Milford one day where we supposed the line ran we found that they were taxing property which we considered was in Brookline. As we could not prove our contentions we finally agreed to survey the line to prove whether we were right or not.

After two days work, we found that we could not finish the job then, as the Tax Commission had urged us to get our taxes out if possible by July 1. After a conference with the Milford board they finally agreed to give us certain property which was in dispute, with the understanding that we would finish survey to prove who were right, when it was convenient to do so.

Under this agreement the following property was taxed in Brookline for the year 1912:

|                                                     |       |
|-----------------------------------------------------|-------|
| Geo. Clark Heirs, 6 acres Hood land, val.           | \$125 |
| A. J. and J. J. Howerson, 7 acres Farley land, val. | 650   |
| S. F. Hayden, 6 acres Eastman land, val.            | 75    |
| W. E. Pierce, 1 acre Hood land, val.                | 100   |

A short time afterwards Mr. Joseph Paridee asked for a reduction of 50 acres from his total acreage taxed in Brookline, which he claimed laid in Milford. As this property had been taxed in Brookline for a number of years, we thought that an investigation was needed before we could agree to his contention.

As we did not know from any reliable source where this town line was we had a conference with the Milford Board and they were in doubt as much as we had been in regard to location of same.

We finally came to an agreement with them whereby they allowed us this 50 acres that Mr. Paridee claimed was in Milford.

Part of this land took in a large, valuable tract of timber which had been sold by Mr. Paridee to Mr. C. F. Melindy, who was operating the same at this time.

This property in question, by many was thought to be in Milford, but in conferring with Milford Board we found no tax which would show that this contention was right, we also find that although Brookline was taxing this property it was only as a sprout lot proposition, as we find no record of this lot being taxed otherwise.

After survey was made we find that \$8000 to \$10,000 of this \$15,000 lot was taxable in Brookline.

Under compromise they allowed us as follows :

|              |           |
|--------------|-----------|
| Mill, val.   | \$ 700 00 |
| Horses, val. | 1200 00   |
| Lumber, val. | 8938 00   |

Making a total of \$10,838 00

In going further along the line, also, was allowed 10 acres of Robbins' pasture, value, \$750. Making a total gain of all property at this time of \$12,538; with a tax of \$176.53.

Just before closing our books we were looking over land around Mr. Leroy Putnam's place and met Mr. Putnam, who informed us that he had just bought property that laid in Brookline, but Milford was taxing same at present. As our time was limited to take this up with the Milford Board we accepted list as presented to us by Mr. Putnam and taxed same in Brookline for the year 1912. This gave us new property of 27 acres on which was a large henhouse with 180 hens. Value of this property was \$530, taxes on same was \$7.42.

Making a total gain of new property on this line not taxed before in Brookline, including Mr. Putnam's, of \$13.068; taxes on same \$182.95.

In December it was decided we would finish survey of line, which we have done, and by which it not only proves that our contentions were right in the main, but

find other property not taxed in Brookline ; also found that we were taxing land that belongs to Milford.

In making this survey we have had 17 stone posts set on the line as permanent marks, also have had 10 boulders marked, making a total of 27 markers, on this line of six and one half miles.

Also have cut out, so in the future one can start from corner on the Mason line and go to corner on Birch Hill by walking in this path, and have marked trees on both sides of line whereby it is an easy matter for one to know just where he is when crossing line anywhere in the woods.

We have arrived at the following agreement with the Board of Selectmen of Milford under survey made. We have endeavored to straighten this land question so now we think that same is as near right as can be with information available from all sources.

Milford allows us in excess of agreement made last spring the following property which has not been taxed in Brookline.

|                               |         |
|-------------------------------|---------|
| A. J. and J. J. Howerson      | 3 acres |
| Charles Nichols               | 3       |
| W. E. Pierce                  | 2       |
| Fred H. Kingsbury             | 5       |
| Henry Ruonalla                | 2       |
| Harry Melindy                 | 1       |
| Leroy Putnam                  | 2       |
| 1 horse and 2 small buildings |         |
| Joseph Paridee                | 30      |
| Worcester Bros.               | 10      |
| A. A. Hall                    | 18      |
|                               | <hr/>   |
| Total acres                   | 76      |

Estimated value of these 76 acres is \$2260.

Tax value at present rate is \$31.64.

We have allowed Milford the following property, part of which has been taxed in Brookline, and some land

allowed us under agreement, which survey shows we have no right to.

|                   |          |
|-------------------|----------|
| L. Blanchard      | 10 acres |
| O. D. Fessenden   | 15       |
| Grover Farwell    | 1        |
| George L. Robbins | 9        |
| Crosby & Johnson  | 2        |
| Leroy Putnam      | 2        |
| Clarence Trow     | 2        |
| S. F. Hayden      | 1        |
| Worcester Bros.   | 19       |
|                   | —        |
| Total acres       | 61       |

Brookline's total gain as proven by this survey is as follows :

37 acres land with buildings, lumber and live stock ; estimated value, \$15,323. Tax on this at present rate would give us \$214.59.

This property has not been taxed in Brookline before, so this is an entire gain to the town.

## COST OF TAKING NEW VALUATION

We were instructed by State Tax Commission that all property must be taxed for full market value in 1912, also must see that we know what and where every piece

of land lies and true value of same. This has been a very difficult proposition for the following reasons :

First. Owners having no knowledge of property.

Second. No data to show us where to find same.

Third. Finding someone that knew property when owners could not give location of same.

Fourth. In trying to locate lines between property owners without taxing one what belongs to another.

We have tried to use everybody alike, and if mistakes have been made it is on account of owners not having a knowledge of their property that they should.

Since valuation was given out we have had four property owners asking for abatement, three of which we have allowed on account of deeds not calling for number of acres that have been taxed for in the past, also part being in Hollis instead of Brookline.

We have paid out as follows :

|                                        |          |          |

## FRESH POND ICE CO. vs. THE TOWN OF BROOKLINE

In 1909 the Fresh Pond Ice Co. returned the following inventory on their property :

|                                     |             |             |
|-------------------------------------|-------------|-------------|
| Land in various locations           | \$ 5,260 00 |             |
| Buildings                           | 29,000 00   |             |
| Machinery                           | 4,500 00    |             |
| Lumber for stack 60,000 ft. at \$19 | 1,140 00    |             |
| Horses (2)                          | 300 00      |             |
|                                     | <hr/>       |             |
|                                     | \$40,200 00 |             |
| Value of stock in trade             | 8,470 54    |             |
|                                     | <hr/>       |             |
|                                     |             | \$48,670 54 |

We, after careful consideration, refused to accept inventory as far as valuation went. Then notified Ice Co., and sent them a copy of valuation as we consider was right on property. Which was as follows:

|                              |           |             |
|------------------------------|-----------|-------------|

## Report of the Board of Education

During the past year our schools have been in session 35 weeks. Not raising money enough at our last annual school meeting to meet the requirements, we did not receive State aid. The attendance has been good at all the schools.

We need and hope to have State supervision in the near future.
